About Me: With over 11 years of experience as a Front End Developer, I've honed expertise in JavaScript, jQuery, Angular, Bootstrap, CSS3, and HTML. Notably, my last 4 years leading a team at Aircod have equipped me with strong team management skills.

My proficiency extends from transforming wireframes into compelling web interfaces to independently designing and converting layouts into interactive themes. As an active contributor to themeforest.net, I've developed a keen eye for design and a deep understanding of effective layout conversion.

At Aircod, I've excelled in team leadership, ensuring smooth project execution, assigning tasks effectively, and fostering a collaborative environment. I've mentored junior members, facilitating their growth while consistently delivering high-quality code through thorough reviews and industry best practices adherence.

I am confident in my ability to seamlessly integrate design and development, ensuring exceptional digital experiences for your organization.

Religion - Islam

City - Lahore

Nationality - Pakistani

Date of Birth - 25th-March-1991

Marital Status - Married

Education:

Fauji Foundation Model School [Hyderabad, Pakistan]
Matriculation (Computers) – **72%**
2006

College of Excellence for Boys [Hyderabad, Pakistan]
Intermediate (Pre Engineering) – **58%**
2008

IMSA (Institute of Modern Sciences & Arts) [Hyderabad, Pakistan]
BCIT – **2.9 G. P**
2012

Experience:

Aircod Technologies [Lahore, Pakistan]
Principal UI/UX Engineer
Dec 2019 – present
Responsibilities:

• Spearheading the Frontend team, overseeing diverse technology stacks across multiple projects.
• Collaborating closely with the CEO to gather project requirements and subsequently conveying them to the team through the implementation of optimal solutions.
• Conducting training, mentoring sessions, and quarterly performance reviews to enhance team capabilities.
• Engaging in in-depth discussions with the CEO and director to determine application layouts, incorporating the most effective controls and ensuring optimized results. Presenting a functional frontend prototype for approval prior to handover to the Backend Development team.
• Developing reusable code and libraries to facilitate future projects.
• Implementing optimizations to enhance application speed and scalability.

Abacus [Lahore, Pakistan]
Senior Consultant
Jun 2019 – Nov 2019 (6 months)
Responsibilities:

• Conceptualizing and crafting UI/UX wireframes and designs tailored for government projects, obtaining client approval, and translating these designs into a structured codebase using Angular.
• Playing a pivotal role in bridging the gap between graphical design concepts and their technical implementation within the UI/UX framework.
• Actively contributing to the development of new user-facing features that align with project objectives.
• Crafting reusable code and libraries to facilitate efficiency and maintainability for future endeavors.
• Conducting assessments to ensure the technical feasibility of proposed UI/UX designs.
• Implementing optimizations to enhance application speed and scalability, aligning with performance objectives.

Sublime Wireless Incorporate(SWI) [Lahore, Pakistan]
Senior UI/UX Engineer
Nov 2017 – June 2019 (1.5 Years)
Responsibilities:

• Translating UI/UX design wireframes into executable code to render the visual components of the application.
• Serving as a key link between graphical design and technical implementation to ensure seamless integration of UI/UX elements.
• Actively contributing to the development of novel user-facing features aligned with project objectives.
• Constructing reusable code and libraries for subsequent use, promoting efficiency and maintainability.
• Conducting comprehensive assessments to ascertain the technical feasibility of proposed UI/UX designs.
• Implementing optimizations to achieve peak application speed and scalability in line with performance goals.
• Constructing the HTML structure based on provided JSON by backend developers.
• Verifying and validating all user inputs before submission to the backend to ensure data integrity and security.
• Collaborating closely with team members and stakeholders to facilitate effective communication and project cohesion.

Sound View Technologies [Lahore, Pakistan]
Front-End Developer (Part Time)
Aug 2018 – June 2019 (01 Year)
Responsibilities:

• Develop new user-facing features
• Ensure the technical feasibility of UI/UX designs
• Paint The HTML Structure Using Provided JSON by backend developers
• Optimize application for maximum speed and scalability

Systons [Multan, Pakistan]
Senior Web Designer and Developer
Nov 2016 – Oct 2017 (01 Year)
Responsibilities:

• Design PSD layout for themeforest.net

• *Convert PSD into HTML for themeforest.net*
• *Train the juniors and lead the team*
• *Manage projects and updates*

Sugotech [Multan, Pakistan]
Senior Web Developer
January 2013 – April 2016 (03 Year)
Responsibilities:
• *Design PSD layout for themeforest.net*
• *Convert PSD into HTML for themeforest.net*
• *Train the juniors and lead the team*
• *Manage projects and updates*

Next Syntax Technologies [Multan, Pakistan]
Assistant Web Developer
January 2012 – Jan 2013 (01 Year)
Responsibilities:
• *Css Customization of Wordpress Website*
• *Perform assigned task related to CSS*
• *Learn new techniques*

True Educators School [Hyderabad, Pakistan]
Computer Lab In charge, Teacher
August 2010 – August 2011 (01 Year)
Responsibilities:
• *Update and maintain the computer lab*
• *Teaching Math and Computer*
• *Taking part in admin related issues*

Sindh Grammar School [Hyderabad, Pakistan]
Receptionist, Teacher
August 2008 – August 2010 (02 Year)
Responsibilities:
• *Front Desk Officer*
• *Teaching Math and Computer*
• *Taking part in admin related issues*

Technologies:

1. *HTML5* *(Expert)*
2. *CSS3* *(Expert)*
3. *Vanilla JS/ JavaScript* *(Professional)*

Frameworks:

1. *JQuery* *(Professional)*
2. *Angular JS* *(Professional)*
3. *Angular 2+* *(Professional)*
4. *Bootstrap* *(Expert)*
5. *Materialize* *(Expert)*
6. *Tailwind* *(Professional)*

Tools

1. Photoshop CS6, CC
2. Visual Studio (TFS, Git)
3. Atom
4. Sublime Text
5. Visual studio code
6. Redmine
7. Jira

Specialties:

1. Pixel Perfect Coding
2. Ability to decide the best possible design solution based on the requirements
3. Well Commented Code
4. Super Responsiveness
5. Shortest Possible and flexible coding
6. Professional Designing Skills
7. Know the usage of fonts, colors and images in a design
8. Good Organizational Behavior
9. Punctual
10. Restricted to deadline.

Certifications:

1. English Language Course [Aptech, Hyderabad] [2006]
2. Android Development Course [The Net Rider, Multan] [2015]

Languages:

1. English
2. Urdu
